# **REAN LUCAS**

# Fullstack Developer

reanlucasdev@gmail.com | (41) 9 8474-8437 | LinkedIn | GitHub | Portfolio

# **PROFILE**

A technology enthusiast dedicated to tackling technical challenges. Fluent in English, with strong proficiency in Javascript, Typescript, PostgreSQL, Linux systems, Git, and Docker. Actively applies algorithms and data structures through LeetCode practice. Currently pursuing a degree in Systems Analysis and Development at PUC-PR, expecting to graduate in 2025.

#### **SKILLS**

- Languages & Frameworks: JavaScript, TypeScript, Node.js, Next.js, Express.js, React.js
- Databases: PostgreSQL (Development & Modeling)
- Tools & Platforms: Git & GitHub (Version Control), Docker (Containerization), Linux (System Administration, SSH, Deploy), Windows Server
- Methodologies & Concepts: Full-Stack Development, API Design (REST, CRUD), UI/UX Design (Tailwind CSS), SEO (Static Site Generation SSG), Algorithms & Data Structures

#### **EXPERIENCE**

#### **Advanced E-commerce Platform**

Personal Project

- Engineered a comprehensive e-commerce website to apply and demonstrate advanced web development concepts.
- Implemented secure JWT authentication, robust data persistence with PostgreSQL, and server-side role-based authorization for enhanced security.
- Developed an administrative dashboard featuring full CRUD (Create, Read, Update, Delete) functionalities for product management, accessible via a REST API.
- Constructed the user interface with React, utilizing Static Site Generation (SSG) for optimal SEO performance.

## Landing Page Development | Aesthetics Clinic

Junior Developer - Curitiba, Paraná

- Designed and developed a dynamic, responsive landing page using React.js, Next.js, Motion (for animations), and Tailwind CSS.
- Enhanced lead generation by integrating a pop-up connected to the WhatsApp API, enabling direct and personalized customer communication.
- Incorporated an iframe with the Google Maps API, allowing users one-click access to the clinic's location and navigation.

## **EDUCATION**

#### **Systems Analysis and Development**

PUC-PR | Curitiba, Paraná

Expected Graduation: 2025

# **ADDITIONAL STRENGTHS**

- Languages: Fluent in English
- Communication: Excellent verbal communication skills
